

THE COUNTRY CLUB

HOUSE GUIDE — FROM THE STARTER

THE CLUB, IN YOUR POCKET.

HANG THE CREST ON YOUR PHONE'S HOME SCREEN — THE CLUBHOUSE OPENS LIKE AN APP. ONE MINUTE, NO APP STORE.

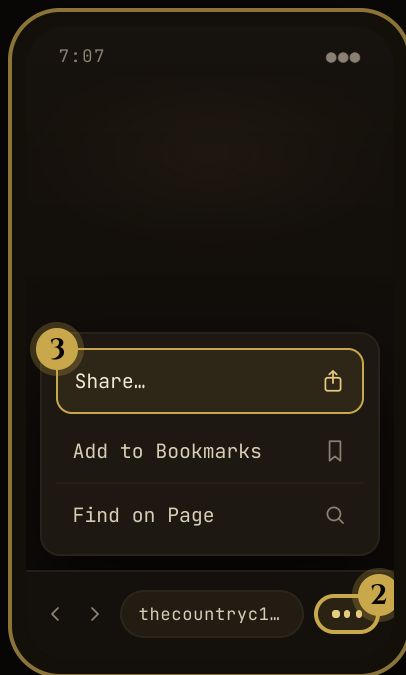

MEMBERS ONLY • KEEP THE DOOR CLOSE

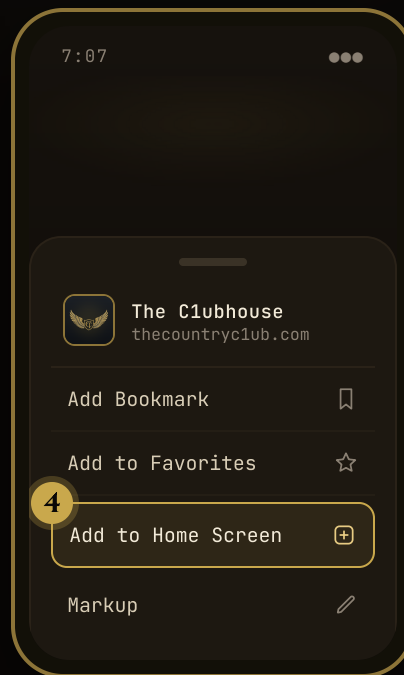

FIVE TAPS IN SAFARI.

Pick up your iPhone and open Safari. On an iPhone it must be Safari — it's the only doorman Apple allows to hang a shortcut on your home screen. Chrome can't do it there.

- 1 In Safari, go to thecountryclub.com/clubhouse and walk in as usual.
- 2 Tap the **⋮** button at the bottom of the screen. *(An older iPhone shows a Share arrow there instead — tap that and go straight to step 4.)*
- 3 Tap **Share**, at the top of the menu.
- 4 Slide the list down and tap **Add to Home Screen**.
- 5 Name it whatever you like, then tap **Add**, top right. Done — the crest hangs on your wall.

AFTER STEP 2 — THE MENU

AFTER STEP 3 — THE SHARE SHEET

IF YOUR TILE LOOKS PLAIN

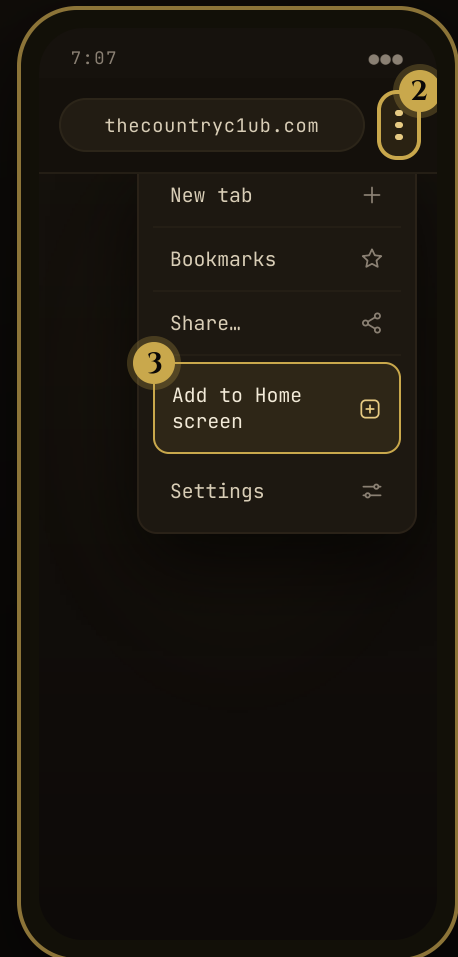

Hung the club on your phone before? Your iPhone keeps the old tile. Remove that shortcut and hang it fresh — the gold crest engraving is new.

THREE TAPS IN CHROME.

- 1 Open Chrome and go to thecountryclub.com/clubhouse.
- 2 Tap the three dots, top right corner.
- 3 Tap **Add to Home screen**, then confirm. If your phone offers **Install app** instead — even better. Tap that.

THROUGH THE POCKET DOOR

- **One tap, full screen.** The crest opens the house like an app — no address bar, no tabs, no browser furniture.
- **Your key.** The pocket door has its own lock, so the house may ask for your member key once, on the first walk-in. Enter it once — the house holds it.
- **The whole house.** The Lobby, the Conversations, the Radio, your locker — one tap from your morning coffee.

THE HABIT

Put the crest on the first page of your home screen, where your thumb can find it in the dark. *The door should never be more than a pocket away.*
